DRR01 V2

Introduction:

DRR01 V2 is a professional 1:10th back wheel drive car and should be built by aged 14 years or over or that they had experience building and operating R/C model cars before. the instruction manual carefully before building. SNRC should not be liable for any loss, injury or damages, whether direct, indirect, special, incidental, consequential, arising from the use, misuse, abuse of this product or accessories required to this product.

Warnings:

- ☐ This product is not intended for those ages under 14 year without any adult supervision.
- ☐ Assemble this kit only in places away from the reach of children.
- ☐ Exercise care when using tools and sharp instrument and take care some parts that may have sharp edges when building.
- ☐ Please do not touch any electronic equipment on the model such as motor and speed controller that having higher temperatures after the operation. Otherwise, it may burn yourself seriously by touching them. Better to allow 10~15 minutes to let any electronic equipment cool down.
- ☐ Please complete a successful pre-run check of your radio equipment and model before the run. Make sure to keep the wheels of the model off the ground when checking the operation of the radio equipment.
- ☐ When on the model, please always turn on the transmitter before turn on the receiver in the car. When off the model, please always turn off the receiver before turn off the transmitter. Otherwise, the model may become uncontrollable and cause serious damage.
- ☐ Disconnect the battery pack before storing your model.
- ☐ Do not get overcharge for the battery or leave battery unattended while charging. Never let children charge the battery without adult supervision.
- ☐ Do not operate it on public places, roads or areas where its operation can conflict with or disrupt pedestrian or vehicular traffic.
- ☐ Do not use your model as shown below:

In places where children and people gather	In rain, wind snow or darkness condition
In areas where loud noises can disturb others	At anytime your line of sight to the model may be obstructed or impaired in any way

Electrical Precautions:

- Please do not allow any metal part to short circuit the battery or any electronic part using inside the car kit.
- Never put batteries into fire.
- Use the recommended charger for the transmitter battery and battery for electronic speed control. Please follow the charging instructions carefully. Please do not over charge the battery or choose the wrong charging mode. It becomes dangerous that causes the explosion and lead to the fire. If battery becomes extremely hot during the charging, please seek the advice from or get replacement from the corresponding battery supplier.
- Please unplug charger when not in use.
- When not using RC model, please always disconnect and remove the battery.
- Low battery may result in loss of control. Please stop running the car at once when you find its speed start to slow down.
- After use the battery, the battery remains heat and please recharges it after the battery is cool down.
- Never use damaged wires that are dangerous and cause short circuits and may lead to the fire.

Other Equipment Needed (not included):

Radio transmitter & receiver	Battery for transmitter
Electronic speed control	Steering Servo
540 Type brushes or brushless motor	Battery charger
190mm body shell	7.4V Nimh or Lipo Battery

Tools Needed (not included):

1.5mm, 2.0mm, 2.5mm allen wrench	5.0mm, 5.5mm, 7.0mm hex socket wrench
Modelers craft knife	Turnbuckle wrench
Calipers/Ruler	Camber gauge
Instant glue/Thread lock glue	Shock and Diff Oil
Thrust, Diff and Joint grease	Paint for body shell
